

# *SUMMER RESEARCH OPPORTUNITY* **DUKE UNIVERSITY** **CELL BIOLOGY AND BIOCHEMISTRY** **ACADEMY (CEBA)**

## About CeBA:

This summer, Duke University's Department of Cell Biology and Biochemistry is hosting a **six-week, paid summer research experience** for high school juniors and seniors with strong interests in studying biology and biochemistry.

Participating in this summer program will give students **hands-on** experience in laboratory research techniques, and they will get to **experience life as a cell biologist or biochemist at Duke University.**

Under the guidance of an experienced researcher, students will complete their own **independent project in cell biology or biochemistry** over the summer. Their work will culminate in a scientific poster session, where they will get to present and share their results with other researchers. **Students will be awarded \$2,400 upon program completion.**

## Program Dates:

June 22 - July 31, 2026

## Application Deadline:

March 20, 2026

**Learn more at** [bit.ly/ceba2026](https://bit.ly/ceba2026)

Student researchers  
will be awarded \$2,400  
upon completion of the  
internship!

Get hands-on  
research experience  
in and learn about  
STEM career paths!

Pursue impactful  
research projects in  
Duke University  
laboratories!

High School  
Sophomores, Juniors,  
and Seniors are  
invited to apply!
